Rules concerning husbandry.

WHen you would Plant or Graft, conſider where the wind bloweth, if it be in the South it is very good for that purpoſe, but if it be North or Eaſt it is not good.

It is good to plant or graft generally the Moon encreaſing in theſe ſigns, Taurus or Aquarius, in the beginning of the Spring or latter end of Harveſt.

Plant trees for continuance, when the Moon is in Taurus, Leo, Aquarius.

Cut timber to have it ſound in December or January, in the

the wane of the Moon in Aquarius or Piſces.

Prune trees and pull off the moſs in the Moneth of Febr.

Plaſh hedges, and Lop trees for Fewel, that the heads may the ſooner grow again, when the Moon is in Aries or Libra, and in her increaſe.

Set young Quickſets from September to March.

Remove young Trees in the laſt quarter of the Moon, when ſhe is in Aries, Libra, Scorpio; and in theſe Moneths, September, November, February.

Set vines in February, March or September, eſpecially the Moon in Aries, Libra, Scorpio, in her increaſe.

Set Roſe trees in the midſt of Febr. the Moon increaſing.

Cut or prune trees in March or April, the Moon in Taurus, Virgo or Capricorn.

Gather fruit, as Apples, Pears, and the like, at the full Moon the afternoon, the weather being fair and dry.

Cut down Hay preſently after the full of the Moon.

Dung ground for to prevent growing of weeds, the Moon decreaſing.

Sow Carret-ſeeds about the end of February, or the beginning of March, the Moon increaſing. Alſo ſow Onions, and Leeks in February or March, at the wane of the Moon.

Sow Cucumbers and Millions in February or March, or June, in a hot and fair day.

Sow Parſley, Fennel, Anniſeed, in February or March, at the full of the Moon.

Sow Margerum, Violets, Time, Roſemary, and Lavender, in February, March, or April, in the increaſe of the Moon.

Sow Gilliflowers and Wall-flowers in March or April, in the old of the Moon.

Sow Hyſop and Savory in March, when the Moon is old.

Sow double Marigolds in February or March, in the increaſe of the Moon.

Shear Sheep at the increaſe of the Moon.

The beſt time to Geld cattel the Moon being in Aries, Sagittarius or Capricorn.

Of Blood-letting, and ſome other Phyſical Obſervations.

IN Youth let bloud from the change to the firſt quarter, in middle-age, from the firſt quarter to the full, In elder years, from the full to the laſt quarter. In old age, from the laſt quarter to the change. But know that under the age of 14. and above the age of 56. it is not good to bleed at all.

Again, in the Canicular or Dog-dayes, it is very hurtful to take any Phyſick at all, unleſs there be great need; and indeed neceſſity hath no law: wherefore in ſuch a caſe, the diſeaſe being deſperate, the cure muſt be adventured.

Take a purgation when the Moon is in Trine, or Sextile aſpect with Venus, decreaſing in any of theſe three Signs, Cancer, Scorpio, or Pices, and it will be ſure to work the better, becauſe when a moyſt Planet, in a moyſt Sign hath ſuch an aſpect, the humors in the body are then ſtirred up and down, and ſo the better purged out; wherefore in this caſe, it cannot be amiſs to prepare humours by ſomething that is laxative: and let this be done whilſt the Moon is either in Gemini, Libra, or Aquarius.

Take a vomit that it may work throughly when the Moon is in Aries, Taurus, or Capricorn: and know that the aſpects of the Moon with Saturn, or Mars, or the Moon in Leo, ought to be eſchewed in taking of Medicines.

Finally, if Neceſſity urge no haſte, theſe obſervations are expedient: for it is a plain truth, that the change of weather upon differing aſpects, doth greatly change and alter mens bodies.
